## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Examiner agrees with Applicant's arguments, filed on January 23, 2004, that the closest prior art of record, namely the Gwyn reference, appears to neither teach nor reasonably suggest that the glass sheets are adhered to one another. Specifically, there is no indication that the charge applied to adhere the flour to the glass sheet, is also sufficient to adhere the glass sheets together, in a process wherein one or both of the sheets have been electrostatically charged, and said sheets are ultimately separated. Therefore, the claims are allowable over the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
